

CF-53

Automatic Retractable Collar Truning And Blocking machine

自动反领焗领机

機械夾夾緊領
Automatic clamp fixing collar

• Max pressing length 压领最长: 6inch

1. Suitable for turning and blocking collar
2. Adopt PLC and human machine touch screen for operation
3. Heating is controlled by independent digital thermostat, temperature control is more accurate
4. Collar is pressed after collar template being retracted, in order to make collar flatter
5. Twin mould operation and twin collar feeding mechanism for high efficiency
6. Pressure and time are adjustable
7. With two collar turning needles
